ORDER

3-12-2009: Perused petition dated 27-11-2009 received from the complainant.

The case of the complainant is that, she had lodged a complaint with the Respondent-PIO on 20th April, 2009 regarding certain problems relating to implementation of NREGS at Tyrngei Village. Not receiving any response from him on the above complaint, she had filed an R.T.I. application dated 7-9-2009 with the Respondent-PIO seeking information on matters relating to processing of the complaint which she had lodged before the BDO-cum-P.I.O. on 27th April, 2009. The Respondent-PIO vide letter No. SDD/ESTT/RTI ACT-2005/135/2007/33 dated 24-9-2009 responded to her R.T.I. application stating that he did not receive the alleged letter of complaint as stated in the her application. He however, gave certain information regarding the matter which does not fully meet the requirement of information sought under R.T.I. Hence the instant complaint before this Commission.

The Commission having duly perused the documents made available by the complainant found that the Respondent-PIO had already responded to her R.T.I. request stating that he did not receive the alleged complaint stated to have been lodged by her on 20th April, 2009. It is, therefore, only logical that if the alleged complaint has not been received by the Respondent-PIO, any information on the processing of the alleged complaint does not arise.

No complaint can lie against the P.I.O. for any information sought which does not exist, unless there are evidences to prove their existence.

Complaint petition rejected.
